SUMMARY

Senior Frontend Developer with 8 years of experience building scalable, data-intensive web applications with React, Next.js, TypeScript, Vue, and Nuxt. Specialized in design systems, accessibility (WCAG), and UI/UX architecture for analytics platforms and public-facing products. Proven record of reducing development time through reusable component libraries and leading front-end modernization efforts. Open to remote roles across all time zones.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3

Frameworks: React, Next.js, Vue, Nuxt, Astro

UI & Design Systems: Tailwind CSS, shadcn/ui, MUI, DaisyUI, Storybook, Figma, headless components, WCAG/a11y

Data & State: GraphQL, urql, React Query, Zustand, Zod, React Hook Form, Mapbox, AmCharts

Platform & Tooling: PocketBase, Supabase, Hasura, n8n, Cloudflare, REST, CI/CD, Core Web Vitals, i18n

PROFESSIONAL EXPERIENCE

Senior Frontend Developer — Freelance

Mar 2025 – Present

- Architected the front-end and UI/UX of a **remittance-operations platform** serving as a single source of truth, with a **scope-based permission system** isolating each operator to only their daily workflow (Next.js, TypeScript, GraphQL).
- Delivered a **finance module** for a US logistics company, integrating Next.js/GraphQL with **n8n** and **QuickBooks** workflows and **unifying 2–3 separate systems** into a single UI.
- Audited and refactored** an AI-generated workflow-orchestration front-end for reusability and stability, then shipped UI/UX polish and new features (Next.js, shadcn/ui, React Query).
- Built a **SEO- and performance-focused marketing site from Figma**, editable without developer intervention (Astro, Tailwind CSS, Cloudflare deploys and analytics).

Senior Frontend Developer — Elion Partners

May 2022 – Mar 2025

- Built a **headless React/TypeScript component library** that cut manual development time by **~50–70%** once stabilized, powering an analytics platform used across a **30–50-person** real-estate intelligence firm.
- Delivered **5 interconnected applications** (predictive valuation, portfolio dashboards, demographic analysis) supporting the **full capital-raising and asset-management cycle**, from pitch to analytics.
- Led a front-end migration** as one of two dedicated frontend engineers, and implemented a company-wide **design system in Storybook** for a consistent experience across products.

Frontend Developer — White Peak Tech

Sep 2021 – May 2022

- Led the modernization of a **public crowdfunding platform for real estate and art**, migrating a legacy Django/HTML system to Vue/Nuxt and **reducing legacy code to email templates only**, lowering long-term maintenance friction.
- Defined front-end architecture and code decisions with direct impact on the product.

Frontend Developer — Legal Credit Solutions

Aug 2020 – Sep 2021

- Co-architected a **30-component Vue design system** (inputs, layout, data display, with full variants) unifying UI across multiple fintech products under one brand.
- Contributed to Storybook documentation to enforce maintainability and best practices.

Junior Frontend Developer — White Peak Tech

Nov 2018 – Jun 2020

- Delivered dashboards, data-visualization maps, and landing pages, and built interactive prototypes for real-estate and art investment products.

EDUCATION

Computer Engineering — Universidad Nacional Experimental del Táchira (UNET), San Cristóbal 2015 – 2018
